Volume 19, Number 3

BRAINERD, MINNESOTA THURSDAY, JUNE 5, 1919

Price Three Cents

THE WORST COAL MINE DISASTER IN HISTORY

SENATE ACTION PLEASES WOMEN

Open Campaign at Once for Ratification of Equal Suffrage Amendment.

LEADERS ARE HOPEFUL

With Legislatures of Five States Now in Session They Will Press Their Cause—Ask for Special Meeting in Minnesota.

St. Paul, June 5.—Alice Paul, chairman of the National Woman's party, announced that the campaign for the ratification of the woman suffrage amendment, just passed by the senate, will open in St. Paul at once.

She is in the Twin Cities for a series of suffrage speeches before the Minnesota branches of the party and other organizations, and by virtue of her presence, the national campaign also opens in St. Paul. Steps will be taken at once to secure a special session of the Minnesota Legislature, Miss Paul said. Mrs. A. R. Colvin, state chairman said Governor Burnquist will be asked to call the session as soon as practical.

Miss Paul anticipates little or no trouble in the 26 states which already have suffrage, among which is Minnesota. The campaign therefore will be centered in obtaining 19 more states. She believes that the required number will have been secured by the close of the summer.

Five State Legislatures in Session.

The Legislatures of five states are now in session. In Wisconsin, Michigan, Illinois, Massachusetts and Pennsylvania, therefore, the ratification will be brought to a vote soon. The special sessions should not necessarily last more than two or three days.

Miss Paul traced the record of the amendment from the time of its first draft in 1875 by Susan B. Anthony, to its final passage yesterday. The present movement for its adoption, which is now nearing its culmination, was instituted in 1913.

"Women's suffrage was first advocated in America by Susan B. Anthony," she said. That was in 1848. She and those who supported the movement sought to secure the incorporation of the amendment through the states, but after the Civil war when the negroes got the vote through congress, the women also turned to that method of approach.

Action by the senate in adopting the amendment, 55 to 25, elicited favorable comment among leading men and women of the Twin Cities.

Governor Burnquist said: "I have favored it for a good many years and I am glad that it has at last been passed. I believe Minnesota will ratify it all right."

BAKER HONORS JOHN R. MOTT

Decorates Him With Distinguished Service Medal.

Washington, June 5.—Dr. John R. Mott, general secretary of the National War Work Council and International committee, Y. M. C. A., was decorated with the distinguished service medal by Secretary Baker. Dr. Mott was cited for "especially meritorious and conspicuous service." Eighteen other civilians have received the medal.

COMMENT ON PEACE TERMS

Austrian Press Is Aroused Over Allied Conditions.

Vienna, June 5.—Austrian newspapers were bitter in comment regarding the peace terms.

"The treaty is worse than our worst expectations," said the Neue Freie Presse. "It will lead to complete ruin." "They have torn the living flesh from starved Austria," according to the Arbeiter Zeitung.

MAGISTRATES SIGN APPEAL

Two Hundred Germans Ask for "a Peace of Justice."

Berlin, June 5.—Magistrates of 200 German municipalities, with populations totaling 30,000,000, have signed an appeal on behalf of the German cities to the American people protesting against the peace terms and demanding "a peace of justice," such as was promised on the basis of President Wilson's principles.

PASSES AGRICULTURAL BILL

House Eliminates Rider to Repeal Daylight Saving.

Washington, June 5.—The House passed the agricultural appropriation bill carrying \$31,600,000. The vote was 245 to 1.

Repeal of daylight savings was knocked out of the bill on a point of order before it was passed.

MRS. A. C. READ AND BABY

Pleased at Husband's Feat in Flying Across Atlantic.

I think it is the most wonderful thing that has ever happened—I knew he would make it." So said Mrs. Albert C. Read, wife of Commander Read, who made the first flight across the Atlantic in an airplane. The photograph shows Mrs. Read and her five-month-old baby.

SAIL FROM ARCHANGEL

American Troops Leave Russia for French Port.

Infantry Detachment Is First of United States Expedition to Start for Home.

Archangel, June 5.—An American infantry contingent which has been serving in northern Russia boarded a transport for the trip to the United States. These are the first American troops detailed to sail for home. The detachment will go to Brest.

Six companies of the 339th Infantry, aggregating 1,600 men, or approximately one-third of the American force on the Archangel front, comprise the first detachment to leave. They embarked at Economia, the winter port of Archangel.

Bolshevik Start Counter-Drive. London, June 5.—A Russian wireless message received here claims that the Bolsheviks have successfully undertaken a counter offensive against the Estonians and the North Russian troops advancing along the Gatchina railway.

The soviet troops occupied several villages 45 miles west of Gatchina the statement adds, and also are advancing in the Marva sector. Gatchina is 35 miles south of Petrograd. The Bolsheviks also claim to have gained successes against the Kolchak forces in Eastern Russia.

TRIAL OF GERMAN AGENTS

Evidence Shows They Were Pawns of Von Buelow.

Zurich, Switzerland, June 5.—The further the trial here of 28 alleged pro-German agents proceeds the more evidence is produced tending to show that German secret diplomacy has been at work throughout the world.

Two of the prisoners, Hindus, are charged with plotting revolutions in Switzerland and Italy, planning to murder former Premier Salandra and Foreign Minister Sonnino, of Italy, and blow up the banks in Rome and Milan and to destroy the famous Simplon and other tunnels.

The examination of the accused men has indicated that they were only pawns in the hands of Prince von Buelow, once German chancellor.

MARINES LAND IN COSTA RICA

Americans Disembark at Two Ports, Say Newspaper Reports.

San Salvador, June 5.—American marines have been landed at Puntarenas and Port Limon, Costa Rica, because of the revolution against the government headed by General Tinoco, according to dispatches printed in newspapers here.

The revolution in Costa Rica has been going on for the last two months. The fighting has been restricted almost entirely to the mountainous country near the Nicaraguan border.

Puntarenas is a port on the Pacific coast of Costa Rica and is the Pacific terminus of the railroad extending across Costa Rica to Port Limon, which is the most important harbor on the Atlantic side of the country.

Over 100 Miners are Believed Killed by Explosion in Tunnel

Turkish Peace Delegates Will be Called in Soon

BY FRED S. FERGUSON, (Staff Correspondent, United Press)

Paris, June 5.—The big four have decided to call in the Turkish peace delegates according to official reports. The exact date has not been fixed. From the same source it is learned that the Turks will be considered merely as witnesses and will have to accept the terms practically as drawn without opportunity for discussion. The big four today heard Premier Paderewski regarding upper Silesia, which some allied delegates now advocate being retained by Germany instead of being awarded to Poland.

America's Greatest Hero a Captive

(By United Press)

Nashville, Tenn., June 5.—America's individual soldier, Sergeant Alvin C. York, who captured 13 Germans single handed, has been captured himself. He will be married Saturday to Miss Grace Williams, his childhood sweetheart, Governor Roberts of Tennessee performing the ceremony.

Answer German Proposals by June 12

BY FRED S. FERGUSON, (United Press Staff Correspondent)

Paris, June 5.—The allies answer to the counter proposals will be handed to the Germans before June 12, it was learned from an authoritative source today.

GERMAN PLANS DEFENSE WAR

Foe Minister of Defense Makes Tour of Coast Cities.

Paris, June 5.—A report has reached peace conference circles that Gustav Noske, the German minister of defense, recently made a tour of the German coast defenses and directed the personnel to be prepared for emergencies.

Mexican War Veteran Dead.

San Jose, Calif., June 5.—Dr. Russell R. Tripp, said to be the last Mexican war veteran in this country, died here within 20 days of his one hundredth birthday. He was a delegate with Abraham Lincoln to the first Republican national convention.

English Derby Is Renewed.

London, June 5.—Grand Parade won the derby at Epsom Downs. Thirteen horses ran in the renewal of the famous turf event after a blank of four years.

(By United Press)

Wilkesbarre, Pa., June 5.—More than ninety men believed killed early today in an explosion in the Baltimore tunnel of the Delaware & Hudson Coal company near Wilkesbarre. Reports from the mine were that approximately ninety bodies have been removed from the tunnel. The mine officials said they believed thirty more bodies were still under the ground. Every morgue in the city was pressed into service. Thousands of frantic women and children are rushing from one undertaker to another and about the scenes of the explosion searching for loved ones. Today's accident was the worst in the history of the anthracite coal region. Prior to this the Avondale, in which 108 men lost their lives was the worst.

The explosion was caused by an electric wire which fell into a car load of black powder. There were 16 cars carrying about 200 men entering the tunnel when the explosion occurred. Most of the men died from inhaling flames, but many were blown to atoms, and the others drowned in a trench of water alongside of the track.

At eleven o'clock colliery officials announced the death list as being 85. A checking up at various morgues showed many names had been duplicated, thus causing a higher estimate of the dead. With many injured at the hospitals reported in a dying condition it is believed the deaths may reach 100.

Winnipeg Strike Situation

Winnipeg, June 5.—Surface indications today pointed to renewed intensity in the fight between various factions in the labor dispute here. Authoritative information however indicated a settlement in which honor to both sides may come in 24 hours. In the meantime strikers have affected a tightening of their blockade. Bread and milk stations have been opened by the municipal authorities.

Vancouver Street Car Employees Strike

Vancouver, June 5.—Street car men joined the general strike here today and thousands walked to work or took a day off. The strike is in sympathy with the Winnipeg general strike.

15,000 Troops at Winnipeg Ordered Prepared For Call

(By United Press)

Winnipeg, June 5.—Fifteen thousand troops were ordered prepared for instant call today when 5,000 returned soldiers staged a parade in sympathy with the general strike. Others started a counter demonstration.

TOWAR ON ANARCHISTS

Former Secret Service Head to Lead Government Fight.

Federal Departments and Congress Plan Finish Fight With Bolshevism in America.

Washington, June 5.—Government departments and congress are planning "a finish fight" with anarchy in the United States.

Changes in the Justice department designed to speed up the work of combating the country for terrorists were announced by Attorney General Palmer, with the appointment of William J. Flynn, formerly chief of the United States secret service, as head of the new Department of Justice bureau to prosecute enemies of the government.

Francis P. Garvan, who has been acting alien property custodian and who has a national reputation as a criminal investigator in connection with the New York district attorney's office, and John T. Creighton, Springfield, Ill., connected during the war with the intelligence bureau of the War Trade board, will assist Flynn.

Will Start Legislation. Congress will start work at once on legislation aimed at deportation of undesirable aliens and the establishment of strict immigration bars for the next two years.

First action will be taken in the House, where Representative Albert Johnson, Washington, one of the men marked in the May day bomb plot, has a bill ready for consideration. The bill provides for the deportation of any offending alien and closes the immigration door to all aliens except those who formerly lived in this country and have been or now are serving in the Allied armies. Aliens must carry registration cards at all times and show them on demand to all officials. They must report semi-annually to the commissioner general of immigration and any change in residence must be reported.

TAX REPEAL STRIKES SNAG

Opposition So Pronounced Solons Will Not Push Bill.

Washington, June 5.—Proposed repeal of luxury taxes has struck a snag. Opposition to the repeal has become so pronounced that the house leaders will not push the bill until they get reinforcements in the form of pressure from the people of the country.

THOMAS S. MARTIN

Virginia Senator Suffering from Nervous Breakdown.

Senator T. S. Martin, of Virginia, senate minority leader, has entered the University of Virginia hospital at Charlottesville, suffering from a nervous breakdown.

RAIL MEN HAVE PLAN

Favor Creating Department of Transportation.

Three Directors Would Decide on Rates and Commission Put Them in Force.

Washington, June 5.—Creation of a department of transportation in the government to be headed by three directors was proposed by A. P. Thom as the plan of the Association of Railway Executives for the permanent solution of the railroad problem.

Speaking before the convention of American Short Line railroads, Mr. Thom said the department would be charged with the duty of representing the public in all traffic matters and the Interstate Commerce commission would order into effect the rates indicated by it.

Criticism of the Interstate Commerce commission by Mr. Thom as too much exposed to the influences of public opinion to adjust rates on the basis of the roads' necessity, evoked opposition from speakers and the convention passed a vote of confidence in the government's rate-making body.

MAJORITY ASSERTS ITSELF

Democrats Fail to Secure Desired Committee Membership.

Washington, June 5.—House Republicans asserted their control in refusing to permit the Democrats to offer an amendment to a resolution which proposed increase of the war expenditures committee to 15 members, so that five separate inquiries of War department expenses might be conducted. The Democrats favored an amendment assuring them six places on the committee. The vote, 197 to 155, was on strict party lines.

Adoption of the resolution followed. Speaker Gillett will appoint ten Republicans and five Democrats to conduct the inquiries, which are to cover aviation, ordnance, camps and cantonments, quartermasters' corps and expenditures in foreign countries.

FOOD OUTLOOK EXCELLENT

Hoover Expects This Season's Crops Will Prove Ample.

Paris, June 5.—There is a sufficient surplus of food indicated from the coming harvest to supply Europe and meet the needs of the world unless some unexpected catastrophe happens to the world's harvests, according to a statement issued by Herbert C. Hoover, head of the Allied relief organization. The bread budget balances but the surplus of the American crop of wheat and rye this year will be needed. The statement says that most of the trading in wheat and rye will be in the hands of the government.

THINKS ENVOYS WILL SIGN

Former President Taft Declares Germans Will Yield.

Pittsburgh, June 5.—"Germany will sign the peace treaty," said former President William Howard Taft, who is here to make two addresses at mass meetings furthering the League to Enforce Peace.

"There is a lull in the peace proceedings just now," the former president continued. "All are waiting for the action of Germany so the treaty can be brought home and laid before the senate foreign relations committee, where it will be considered."

VIENNA REJECTS PEACE TREATY

Capital Paper Says Terms of Pact Unacceptable to Austrian Government.

EXPERTS CONSULTED

Big Four Advises With Authorities on Reparations and Territorial Questions—Wilson's Departure for Home May Be Delayed.

Vienna, June 5.—The Austrian government has decided unanimously that the peace terms presented at St. Germain Monday are unacceptable, the Neues Abendblatt says.

Paris, June 5.—Experts on territorial questions and reparations have been called in by the Council of Four. It is understood that the clauses of the Austrian peace treaty dealing with reparations now have been completed. Neutrals as well as Allies are making preparations to meet the situation that would be created by refusal of the Germans to sign the peace treaty.

Norway, Sweden, Denmark and Switzerland have made known their intention to refuse to enter any blockade agreement against Germany in the event the armistice is ended. The decision of Holland is expected shortly. Wilson's Return Probably Delayed.

Washington, June 5.—President Wilson has little hope of leaving for home before June 13, according to private information received here. He plans to visit Brussels before his return. It therefore appears likely he will not be back in Washington before the end of this month at the best.

An unverified report is circulated that the Big Four has agreed to China making reservation regarding the Shantung settlement when she signs the German treaty.

World Food Control.

Paris, June 5.—The supreme economic council has appointed a committee, composed of Herbert C. Hoover, Lord Robert Cecil, M. Clementell, Signor Crespi and Baron Emile de Cartier de Marchienne of Belgium, to study a plan for liquidation of the world's food control and to study how economic problems are to be met after the approaching harvest.

A preliminary survey of the import necessities of Europe, except Russia, shows the area will need 700,000,000 bushels of wheat and rye at a minimum or 850,000,000 bushels as a possible maximum. Mr. Hoover, the head of the Allied relief organization, said in a statement.

The export surplus of the grain from the larger exporting countries indicates that the needs of Europe can be met. Mr. Hoover estimates the exports of the United States at 479,000,000 bushels.

"We estimate the total prospective European yield of wheat and rye, outside Russia, as of May 1, after deducting seed, at 1,550,000,000 bushels," said the statement. "This indicates a crop of about 77 per cent of prewar normal. The prewar consumption, outside of seed, was about 2,500,000,000 bushels, indicating a net import of about 950,000,000 bushels, if consumption were normal next year."

VIENNA OFFICIALS PEEVED

But Austrian People Are Ready to Accept Terms.

Paris, June 5.—The Austrian government is said to be dissatisfied with the peace terms, which are declared by one of the responsible Vienna newspapers to be unacceptable.

Unlike the German populace at large, the Austrian people apparently are apathetic, having expected no easy terms, and even anxious to accept the conditions laid down and thus bring peace to the sorely stricken former empire.

\$29,000,000 FOR AIRCRAFT

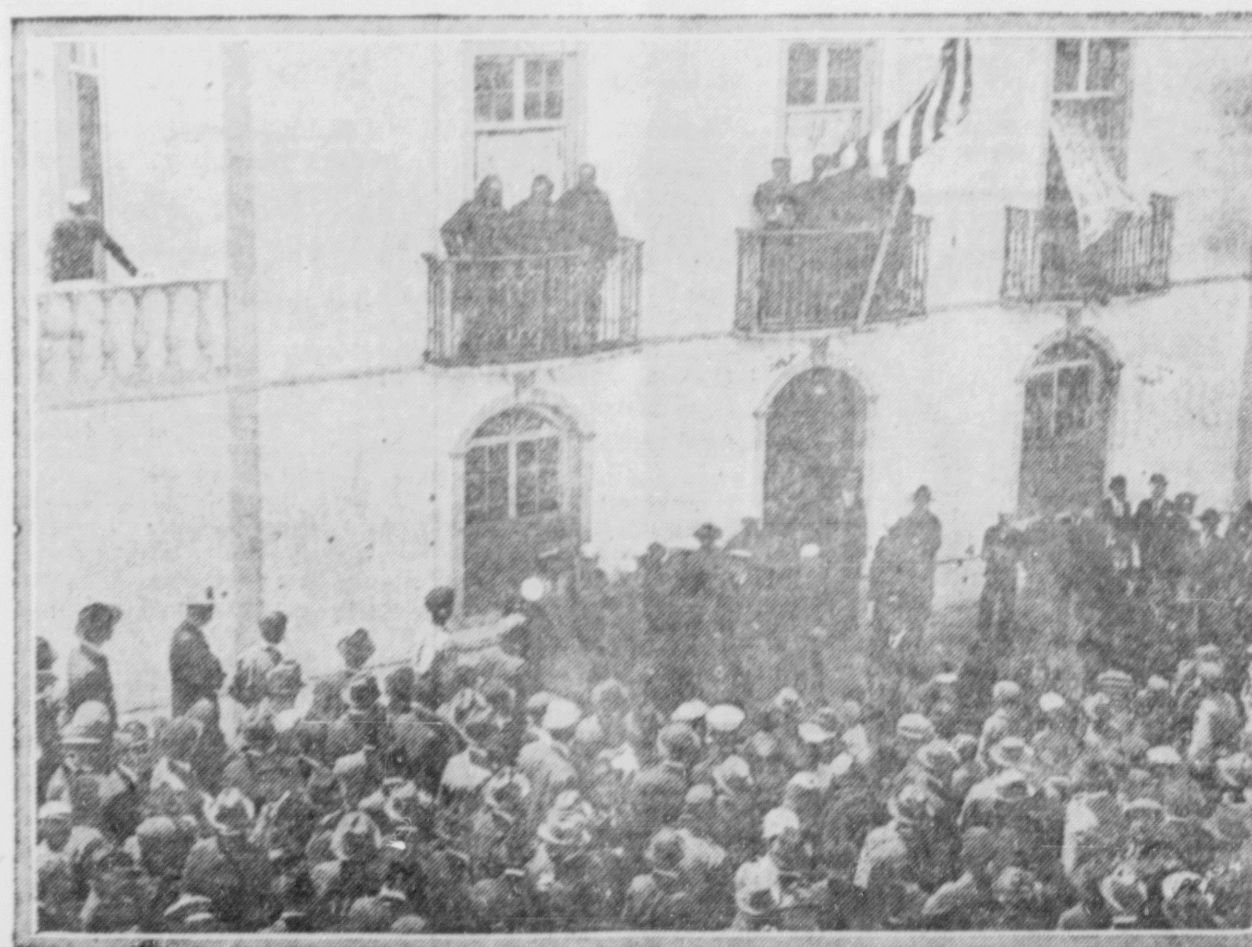

Military Program Calls for Building 1,500 Machines.

Washington, June 5.—Plans for the construction of more than 1,500 airplanes, at a cost of \$29,000,444, and the purchase from Great Britain of one of the newest type dirigibles for use as a model for future dirigible construction in this country, are included in the army program for aircraft production outlined to the House Military committee by Major General Menhert, director of military aeronautics.

Dry Referendum Petitions Stolen

Seattle, June 5.—Signed petitions which were ready to be submitted to the secretary of state asking for a referendum vote on the state's ratification of the federal prohibition amendment have been stolen, an attorney representing the California Grape Protective association announced.

Style in Every Line

The conservative woman, while realizing the importance of style, does not interest herself in fads. Printzess coats and suits are built on lines that reflect the latest Parisian styles and yet they are not faddish in any way.

The woman who wears a garment bearing a Printzess label will not only have the happy assurance that she is stylishly dressed but will also appreciate the durability of the lovely all-wool quality materials combined with the finest tailoring.

The great care taken in every detail of the production of a Printzess garment puts into it many months of excellent service and means that it will hold its stylish lines through several seasons. They are moderately priced too—the best kind of investment.

OFFICIAL MARKING

Mississippi River Scenic Highway
Boasts of White and Blue Bands,
Trail Being Marked

The official marking of the Missis-
sippi River Scenic Highway has been
definitely decided upon and the coun-
ty organizations in the Northern Div-
ision are urged to observe the fol-
lowing instructions and to mark the
route in their county as soon as pos-
sible:

A 14 inch white band clear around
the poles with a 3 inch blue band on
top and bottom. Also a 2 inch blue
band painted vertically connecting the
horizontal blue band, having this
vertical blue bar facing the driver of
the automobile, so that same can be
seen when approaching either side of
the pole. It is very important that
the blue color be uniform on the en-
tire route. It is very dark, but it
is well that it is, so on account of the
fact that all blue paint becomes
lighter with age.

The bottom of this blazing is to be
3 feet above the ground and two
poles are to be painted before and
after each turn in the road or inter-
section. A white letter "L" or letter
"R" on a blue background (signify-
ing turn right or turn left) is to be
painted immediately above the regu-
lar blazing on the second pole from
the turn, thus serving the purpose of
reminding the driver that he is com-
ing to a turn and causing him to
slow up a little.

It is hoped that each county will
have organized for active work in the
interests of the Mississippi River
Scenic Highway during the month of
June, as a meeting will be held in St.
Paul the latter part of the month at
which time reports will be received as
a progress made and other plans
formulated.

It is absolutely necessary, in order
to keep the Northern Division apace
with the other divisions of this big
highway, to act promptly and active-
ly in every county along the route
is urged by President Sum-
merfield.

Powerful New Explosive.

A new and very powerful explosive,
which may be used in mining and for
other purposes, is lead azide, a salt of
hydrazoic acid. The acid forms a
great number of salts, as mercury
azide, silver azide and sodium azide.
Large crystals of lead azide and mer-
cury azide have been found to be very
sensitive to mechanical shocks, the
sensitivity increasing with the size
of the crystals. Even the breaking of
a single large crystal is said to bring
out explosion.

Not His Unlucky Number.

Richard Wagner was essentially a
child of the number 13. He was born
in 1813. Add the numbers 1, 8, 1, 3,
and we have again 13. Wagner had
13 letters in his name. He composed
13 great works. He finished "Tann-
hauser" on April 13, and it was pro-
duced on March 13. And Wagner died
on February 13.

Icebergs.

Icebergs do not form at sea, but are
masses detached from the glaciers
which form on the land and project
into the sea, where great blocks break
off and float out to sea. There is hard-
ly any limit to the size of these
masses, and as ice is lighter than wa-
ter they may float a long time with a
large part of their bulk beneath the
surface and melting gradually by con-
tact with warmer water.

"Pieces of Eight."

The piece of eight was the old Span-
ish dollar or peso, now called a dol-
lar, thus known throughout the Span-
ish Main in the days of piracy, be-
cause it was divided into eight parts. It
was a silver coin worth \$1.

REFRIGERATORS

There is real comfort in having one of our refrigerators "on duty"
in your household during the hot summer months, but it also
means more than that to have one in operation, it means you are
practicing real economy.

Our Refrigerators

Are so scientifically constructed that they produce a cold tem-
perature. Everything remains crisp and fresh, while the tempera-
ture remains unusually cool, the quantity of ice needed to produce
this is unusually small.

For genuine satisfaction and all-around serviceability we rec-
ommend our White Mountain or Northland Refrigerators.

Prices Range From \$21.50 to \$45.00

Began the Bastille.
April 21 is the anniversary of the
beginning of the building of the bas-
tille in 1370 by Charles V, who erected
it as a protection against the English.
The prison became famous in French
history and was finally destroyed by
the people in 1789. The key was sent
by Thomas Paine to George Washing-
ton.

Even Then.
Even the man who thinks twice be-
fore he speaks is often sorry he said
it.—Boston Transcript.

WOMAN'S REALM

BISHOP MC NICHOLAS
GUEST OF HONOR

Bishop of Duluth in Initial Visit to be Entertained at Dinner by Knights of Columbus

ARRIVES IN CITY FRIDAY

Will Deliver Commencement Address at St. Francis Parochial School Exercises

Rev. Bishop J. T. McNicholas, D. D., of Duluth, will be the guest of honor of Brainerd Catholics on Friday.

At 1 o'clock the Knights of Columbus will tender the bishop a banquet at the Ransford hotel. Speakers will extend a welcome to the distinguished church dignitary.

In the evening the bishop will deliver the commencement day address at the St. Francis parochial school exercises. As an orator Bishop McNicholas has few equals and it will be a source of pleasure and instruction to hear him. The Park theatre main floor is nearly all taken, some seats remaining in the balcony, thus giving assurance that every seat in the house will be occupied when the exercises start Friday evening.

The program will be published in full in Friday's Dispatch.

Cronk-Ziebell

A quiet home wedding took place at the residence of Mr. and Mrs. C. B. Stickney, 302 N. Seventh street, at 8:30 Wednesday evening, when Miss Winifred B. Cronk, the popular supervisor of music in the Brainerd schools during the past year, and whose home is in Norwalk, Wis., was united in marriage to Mr. Norman Frederick Ziebell of Neillsville, Wis. The young couple met when the bride was supervisor of music in the Neillsville schools. The bridegroom is an exemplary young man who has resided in Brainerd for the past five months. The bride and bridegroom have made many friends in Brainerd during the time of their residence here. Mr. and Mrs. Ziebell will make their home in this city, and for the present will reside with Mr. and Mrs. C. B. Stickney, 302 N. Seventh street. Rev. Fred Errington of the First Congregational church, read the marriage service.

Fireside Club

The Fireside club of the Norwegian-Danish Lutheran church will meet Friday evening at the home of S. A. Saxrud, 809 South 7th street.

Prayer Meeting

Rev. Andrew Karhu states the regular prayer meeting of his church will be held this evening.

Perseverance Class

The Perseverance class of the Evangelical Sunday school will meet with Mrs. M. B. Congdon Friday evening, June 6th, at 8 o'clock. All members are requested to be present and friends are welcome.

Anglo-Belgian Cable Restored.

Brussels, June 5.—The Anglo-Belgian cable, which was destroyed by the Germans during the war, has been restored, although the presence of mines made the work perilous. The mine fields have been avoided, not crossed.

Counterfeit U. S. Money in Russia. Paris, June 5.—Large amounts of counterfeit American paper money is in circulation in Soviet Russia, according to unofficial dispatches received here.

Matter All Settled.

My neighbor's son came into the house the other day, lending a child by the hand. We looked our astonishment, when we saw the little quaint stranger, and he immediately made this announcement: "I adopted her; she was all alone and crying, so I adopted her and she can have all my toys, keeping my bicycle."—Chicago Tribune.

PASTORET CONS. CO.
WORKING ON CITY JOB

Putting in Sewer and Water on Second Street South in Crosby, and Sewer on Superior St.

DOUBLE TENNIS COURT BUILT

Mrs. C. L. Bentley of Brainerd in Crosby in Interests of Degree of Honor Lodge

Crosby, Minn., June 2.—The Pastoret Construction Co. of Duluth has been awarded the contract to put in water and sewer on Second street so, between Fourth and Fifth avenues west and the sewer along Superior street one block in Lakeview. The price was \$4,433.

A double tennis court is being built on the park site by the village council. The council is also rebuilding the dock at the bath farther into Serpent lake this year owing to the shallow water.

Mrs. C. L. Bentley of Brainerd was in Crosby in the interests of the Degree of Honor lodge lately organized.

Mr. and Mrs. G. H. Crosby, Jr., returned Tuesday from an auto trip to Minneapolis.

A ball was given at the high school gymnasium Saturday night by seniors in honor of the faculty and the alumni.

Mr. and Mrs. H. M. Koop and son spent Tuesday and Wednesday visiting in Minneapolis.

Clark Henry left Saturday for a short stay in Hibbing.

Mrs. Bert Rawson, who has been visiting in South Dakota, has returned home.

Miss Ruth Young entertained at a luncheon Saturday noon in honor of Miss Louise Trier, one of the teachers.

Mr. and Mrs. Pollock announce the birth of a son Tuesday morning.

Mr. and Mrs. C. J. O'Connell and daughter arrived this week from St. Paul to spend a couple weeks at their home on Serpent lake.

Dr. and Mrs. B. A. Smith moved into their home on the lake shore this week.

Born to Mr. and Mrs. W. E. Van Eyera on Saturday, a son, at the Miner's hospital.

Mrs. Margaret Nelson and daughter, Miss Elsie, left Friday for Red River Valley, N. D., to visit friends for a week or so.

E. A. Lamb, Jr., has purchased the C. J. O'Connell residence on Crosby Beach.

Mr. and Mrs. Webb Lathem of Coleraine spent from Saturday until Tuesday with the former's sister, Mrs. H. Ingalls. They were on their way home from Minneapolis.

Harry Lathem and two daughters of Wadena spent Sunday with the former's sister, Mrs. H. Ingalls.

Mr. and Mrs. P. A. Brooks of Minneapolis are guests at the Van Hagen home.

Phantom to Show at New York.

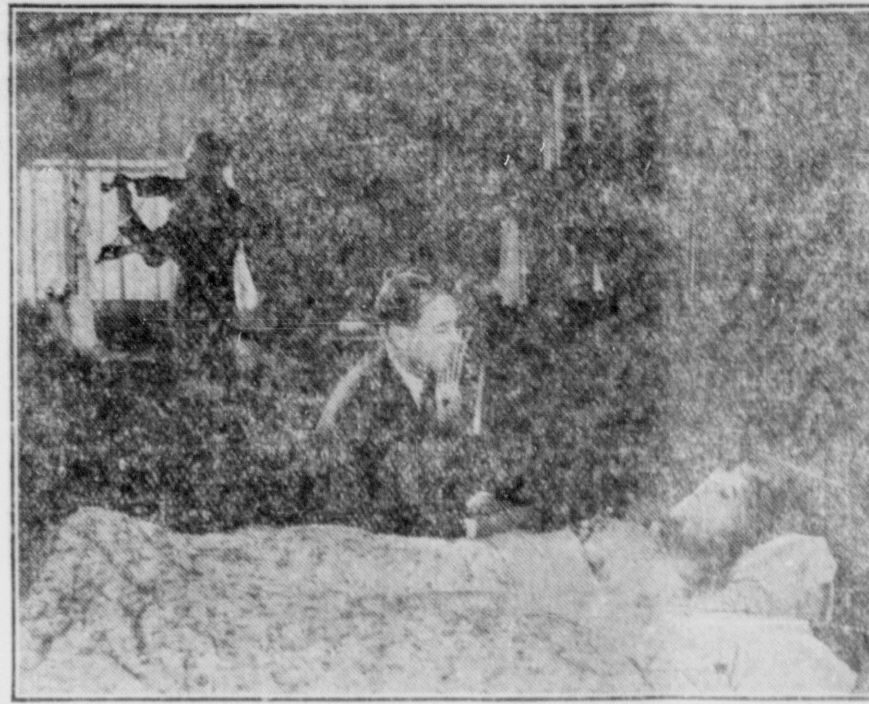

Kansas City, Mo., June 5.—Mike Gibbons of St. Paul and Jeff Smith of New York will box 10 rounds here July 4. It was announced. The bout will be the principal event of a boxing carnival, which is being arranged for that day.

Several Hurt in Rio Janeiro Strike.

Rio Janeiro, June 5.—Several persons were wounded in a fight between police and strikers. Order was re-established after the fight, but the strikes continue.

U. S. Again Huge Granary.

New York, June 5.—Wheat stored in country elevators, mills and terminal elevators in the United States on May 23 amounted to 74,489,000 bushels, as compared with 29,117,000 bushels on that date a year ago, according to a statement by the Food Administration Grain corporation. A decrease of 8,798,000 bushels for the week was shown. Receipts from farms for the week were 2,505,000 bushels. Production of flour from July 1, 1918, to May 23, 1919, amounted to 112,144,000 barrels.

MAKE-UP WORKED TOO WELL

Wallace Beery Need a Scar in "The Unpardonable Sin"—But He Had His Own Troubles Later

Wallace Beery, the well-known motion picture actor who appears in "The Unpardonable Sin," prominent in the support of Blanche Sweet, will remember his engagement in the big Harry Garson picture for a long time—and for very practical reasons.

In order that he might "look the part," he was called upon to play, Mr. Beery found it advisable to manufacture a scar about six inches long on his left cheek. The "manufacturing" was done with the aid of the homely first-aid preparation known as Nu-Skin, the cheek being pulled into a "pucker" to represent the scar, and held in that position by the sticky collodion substance which dries tightly enough to resemble liquid glue.

The scar was a wonderful success from the standpoint of the director, and Beery screened perfectly for the part. It so happened, however, that the filming of the Beery scenes required such a long time that when the actor tried to get back to his normal cast of countenance he found it—and is still finding it—extremely difficult.

For days at a time Mr. Beery slept with the Nu-Skin on his face, finding it easier to keep the make-up on than to put it on a fresh each morning, and when the time came that he wanted to be without the scar to secure another engagement where a comely face would fit better than a disfigured one, the scar had been so well wrinkled in that it

refused to come out. As recently as a week ago, Mr. Beery was making daily trips to a beauty specialist, a la Lillian Russell, to "have his beauty ironed."

The performance given by Mr. Beery—entirely aside from the scar—is one of the big artistic touches of the play. Given a thankless role, and one which inspires anything but sympathy, he is conceded to have handled it in a masterful fashion. It is a step onward in the career of a splendid screen actor.

The encouragement which Marshall Neilan, director of the picture, has given to all of the principals in his cast, has had much to do with the superior merit of the picture throughout. While Blanche Sweet is the star, and always remains the centre of attention, not only because of the splendid manner in which she interprets it, there has been none of the customary "playing down" of other characters in order that the star might profit by comparison. There are half a dozen "bits" in the screen play that will be remembered fully as long as will be the performances given by the principals.

Theatre-goers in Brainerd are fortunate in being afforded this early opportunity of seeing "The Unpardonable Sin." The production has just been finished and is now being shown in the important theatres in the east. The engagement in Brainerd is scheduled for the Park theatre, where one performance will be given daily, with Sunday matinees at 3:30 o'clock, and night show at 8:30.

Tip to Authors.

A youthful aspirant applied to a successful authoress for advice as to how to succeed in literature. "You need indomitable perseverance, a type writer and a machine," was the reply. "Do you mean I had better take in washing?" asked the aspirant. "Non-sense! You need the machine to take the crumple out of your manuscripts. Mangle them well, and then, unless the editors have burned them with cigarette ash, no one can tell they have been out before."

Harbinger of War Fable.

Since ancient days the locust has been the flying wing of superstition. People forget from 1912 till 1919 that the locust has markings on his wings which carry a distinct letter W, which, when noticed, usually results in many stories that war is at hand, the letter W being supposed to stand for the word, war. But the fallacy of such a supposition is in itself evident from the fact that the word for war in French does not begin with W, nor does it in Italian or Spanish.

THE QUINCY MANSION, QUINCY, MASS., BUILT IN 1685.

America's classic example of a clapboard building preserved for over two hundred years by careful and frequent painting. It has secret panels, chimney staircase and hiding places, said to have been used by smugglers. Later the home of great statesmen and of the famous belle, Dorothy Quincy.

* SAVE THE SURFACE. *

MEET AND TREAT AT OUR FOUNTAIN

Munich Bolshevist to Die.

Copenhagen, June 5.—Herr Levine of Munich, editor of the Red Flag, and a revolutionist leader in Bavaria, has been sentenced to death after a two days' trial, according to a dispatch received here from Munich.

Trainmen Choose Toronto.

Columbus, O., June 5.—The Brotherhood of Railroad Trainmen, who have been in convention here since May 14, will hold their next triennial convention in Toronto, Can.

Washington, June 5.—In contempt

proceedings in New York growing out of the Ford-Newberry senatorial election contest in Michigan, the supreme court sustained contempt judgment against Newberry's campaign managers.

Trainmen Re-Elect Lee.

Columbus, June 5.—W. G. Lee, Cleveland, was re-elected president of the Brotherhood of Railroad Trainmen at its triennial convention here. He had no opposition.

Planting Trees on Wall Street.

They are preparing to plant trees along Wall street, for soldiers from Denmark, but this Denmark is a town in Wisconsin and while there may be bulls and bears also on this Wall street they are not the ones usually associated with that thoroughfare. These memorial trees are being planted by John Jorgensen, according to a report to the American Forestry association of Washington, which is registering on a national honor roll all such trees set out.

Replacing Knocked Out Teeth.

Teeth that are knocked out in boxing, football or by falling against something, need not be thrown away. A good surgeon or dentist will clean them and the cavity, replace them, perhaps put a stitch in the gum, perhaps put a pad to bite on for about forty-eight hours, during which you will have to live on a fluid diet, and then gradually restore solid food. Before many weeks you will be able to bite apples and tackle hard crusts.

Jefferson's Wisdom.

Thomas Jefferson said: "I have often thought that if heaven had given me a choice of my position and calling, it should have been a rich spot of earth, well watered, and near a good market. No occupation is so delightful to me as the culture of the earth."

WORSE THAN
• DEADLY
POISON GAS

Kidney disease is no respecter of persons. It attacks young and old alike. In most cases the victim is warned of the approaching danger. Nature fights back. Headache, indigestion, insomnia, lame back, lumbago, sciatica, rheumatism, pain in the loins and lower abdomen, difficulty in urinating, all are indications of trouble brewing in your kidneys. When such symptoms appear you will almost certainly find quick relief in GOLD MEDAL Haaslem Oil Capsules. This famous old remedy has stood the test for two hundred years in helping mankind to fight off disease. It is imported direct from the home laboratories in Holland, where it has helped to develop the Dutch into one of the sturdiest and healthiest races in the world, and it may be had at almost every drug store. Your money promptly refunded if it does not relieve you. Be sure to get the genuine GOLD MEDAL Brand. In sealed packages, three sizes.

SECRET PLANS TO FOIL ENEMY READY

MANY DEVICES AND COMPOUNDS HAD BEEN PERFECTED BY AMERICA AND ALLIES.

THEY WILL NOT BE REVEALED

Tremendous Possibilities in Warfare of the Airplane Under Automatic Control Without Pilot, Successfully Tested at Fort Worth, Tex.

By EDWARD B. CLARK.

Washington—Dispatches which have been received by the war department in Washington from Fort Worth, Tex., telling of the exploits of an airplane under automatic control and with no man aboard, have aroused deep interest, not only because a new war invention thus is perfected, but because it calls attention to the many plans either perfected or in process of perfection which this country and its allies had with which to bring the war to an end in case it could not be finished by ordinary means of offense.

Most of the war secrets of the government have been kept inviolate. The fact that certain machines or certain compounds had been invented or discovered which would aid in the rapid prosecution of the war to the end of victory has been disclosed to the public, but the mechanism of the inventions and the nature of the compounds never have been and probably never will be disclosed, the presumption being that the United States and the allies will keep the secrets locked in their strong boxes until the day comes when it may be necessary to press them into the service.

An airplane under automatic control and with neither pilot nor observer on board carries with it a great load of possibilities. If machines of this kind had been in possession of either of the armies in the field in Europe, fortifications could have been destroyed and cities and villages laid waste without subjecting any man of the allies to the danger of death.

Has Great Possibilities.

According to the reports from Texas, the airplane under automatic control made a trip of 100 miles and landed where the men who dispatched it wanted it to land. If this machine had carried a cargo of high explosives timed to explode when the landing was occurring, or so arranged that percussion ensuing from a slight jar would touch off the explosives, one can imagine what the damage would be.

If the Hun had had a machine of this kind they could have laid Paris waste, and their Big Bertha, the long-distance cannon with the projectile from which they murdered ninety worshippers in the church of St. Gervaise on Good Friday, 1918, would have been cast into the shade as a weapon of destruction and assassination.

Many stories have been told about a new gas which the Americans were ready to use at the French front when the armistice went into effect. Like a good many stories of terrible engines of destruction, the tale of the new gas was considerably exaggerated, but enough is known definitely to make it assured that the chemical compound which was to be used was much more powerful than anything that had been used in the field.

It is not true that the gas would have killed everything within a great radius, or that it would have destroyed all the vegetation for miles around, nor are some of the other fantastic stories about it true, but that it was a powerful gas and one with effects which the enemy would find it hard to meet there can be no doubt. It probably was an intensified form of what is called mustard gas.

Allies Had Many Things Ready.

It is generally understood in the circles round about the army and navy in Washington that these sister services of the United States and the allies had various kinds of improved machines with which to make warfare more quickly deadly to the enemy, and other mechanisms with which to neutralize the efforts of the Hun to overcome the allies with new contrivances.

Means to detect the presence of submarines, means to destroy submarines, means to send great loads of high explosives to distant points, means to lure the enemy ships to points where destruction was certain, and other contrivances were ready or nearly ready for use. The question is whether or not one day the world will see all these inventions in active operation.

Writing of Big Bertha and of the long-distance bombardments of Paris reminds me of an incident which happened in Paris last summer. I was talking to a captain of the United States army, William Moore, a well-known Chicago and New York newspaper man of former days. Moore is slightly lame and he is connected with the historical department of the United States army. Like other men with lots of grit, he was bewailing the fact that his lameness probably would keep him from participation in fighting.

He said to the writer on that day in Paris: "I don't suppose that I'll ever have luck enough even to be near a place where there is any danger."

Within a day or two a Big Bertha shell dropped into Captain Moore's bedroom and blew it into smithereens. The captain had just left his domicile, but he never will have reason again to complain that he didn't get near a point of danger.

Marshall Field, Third, Just Out of Uniform Himself, Helping to Find Jobs for Soldiers

Captain Marshall Field, third, one of the wealthiest young men in the country, who recently was discharged from the army, has accepted the position of assistant manager of the Federal Employment Bureau in Chicago. He is seen here interviewing a soldier just released from service to ascertain what sort of a job he is best fitted for. Field has been active outside of his official capacity in finding jobs for soldiers and sailors.

THE COSMETIC OF THE INANIMATE.

I am the savor of surfaces.
 I am the world-old preserver.
 Noah knew me, for he pitched the ark within and without.
 The Pharaohs sought me as an adornment for their tombs—their mummies endure because I conserve.
 I am the woad of the ancient Britons: their blue battle hue.
 Because of me the treasures of the Sistine Chapel defy effacement.
 I am the keeper of the antique.
 I am the servant of progress.
 Columbus found me bedecking the savages who watched him plant Ferdinand's banner on the shores of New Spain; and the very sails of his caravels resisted the elements of the West through my aid.
 The pioneers westward wending their way daubed the prairie schooners with my protection.
 I am the royal robes of civilization's monarchs, Steel and Lumber.
 The taut wings of the airplane gleam under my protective veneer.
 The sullen dreadnaught and the homing transport plow the seas impervious to corrosion because of me.
 I waterproofed your agents of destruction, the bullet and the shell.
 Then I drew the mercy of my concealing camouflage over your hospitals.
 I glisten on the homes, and on the barns, and on the cement surfaces.
 Where life is, I am alive.
 Where death and decay set in my absence hastens them.
 And my mission is to preserve.
 Saver of Surface, I am PAINT!

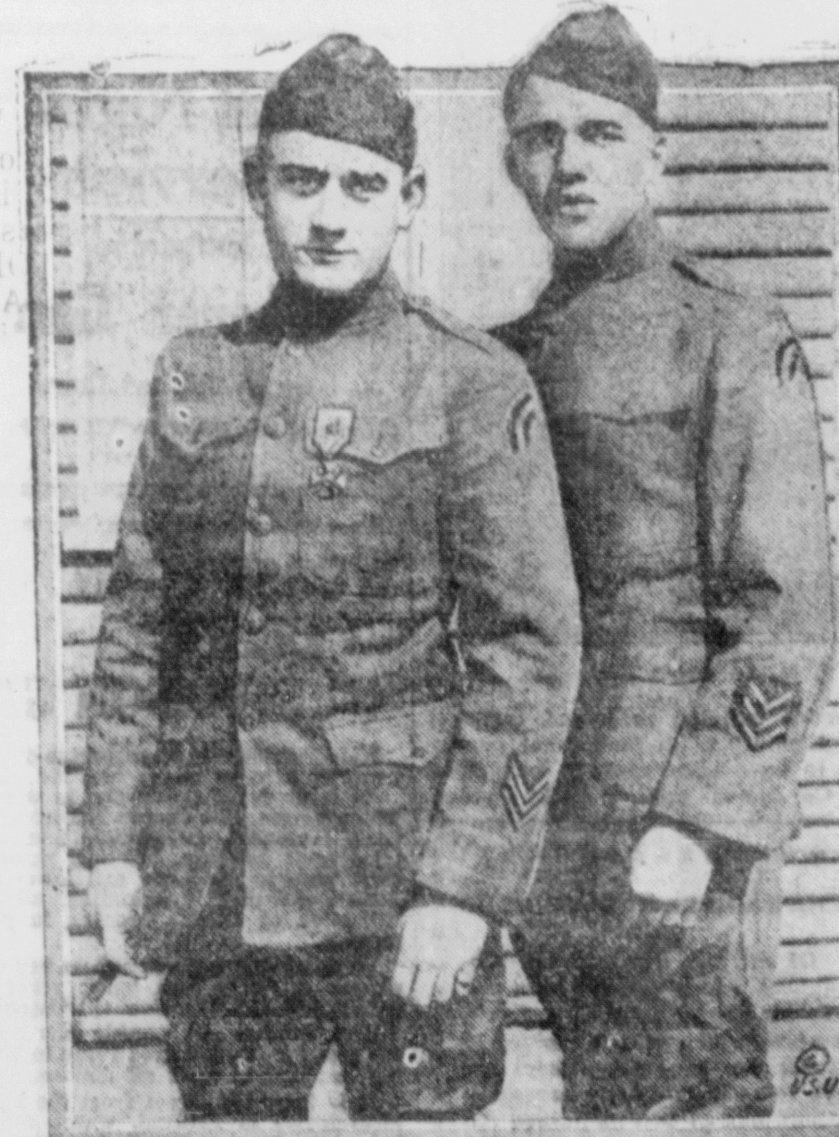

Egyptian Pyramids.

It took 123,000,000 slaves, working 14 hours a day for three centuries to complete the pyramids of Egypt, and the mummies exported from them have not brought, all told, \$3,000,000.—New York Sun.

Really Hit.

"Why do people say, 'As dead as a door nail'?" asked the boob. "Why is a door nail any sadder than a door?" "Because it has been hit on the head, I suppose," replied the cheerful idiot.—Cincinnati Enquirer.

Fightin' Irish! Here Are Two Boys, One Wounded Eleven Times, Who Wouldn't Let Fritz Res

SERGT. RICH. O'NEIL

SERGT. THOMAS BROWN

Here are two of the "fighting Irish" who helped to make a glorious record for the 165th infantry, New York's old Sixty-ninth Regiment. At the right is Sergeant Richard O'Neill, who is to receive decoration for taking command of his company when its officers had been killed or wounded. He was wounded eleven times. Sergeant Thomas Brown was the first member of the Sixty-ninth to receive the Croix de Guerre.

NATURE'S MIRROR

When a woman is well and healthy—there's a sparkle in her eyes, a rose tint in her cheeks, and she has rich red blood. There's elasticity in every movement and a spring in her step. Love

comes to every woman who has bounding health—but when she is pallid, dull eyed, languid, she has no magnetism nor does she appeal to any man.

Such a change in feelings and looks!

After suffering pain, feeling nervous, dizzy, weak and dragged down by weaknesses of her sex—with eyes sunken, black circles and pale cheeks—such a woman is quickly restored to health by the Favorite Prescription of Dr. Pierce. Changed, too, in looks, for after taking Dr. Pierce's Favorite Prescription the skin becomes clear, the eyes brighter, the cheeks plump. It is purely vegetable, contains no alcohol.

Druggists sell it in tablets or liquid. Send Dr. Pierce, Buffalo, N.Y., 10c for trial package.

AMUSEMENTS

THEDA BARA

Strikes Highest Point in Career as Salome—Crowds Witness Production at Best

As "Salome," Theda Bara strikes the highest note in her career. Truly, Miss Bara, as histories of her state is a home-loving body and that vampire line in which she makes a hit, is pure!

is simply pure acting and very good acting on her part.

As Salome she carries out the biggest assignment of vampirism it was ever her fortune to manage and she plays the character true to life or as true as any student of literature would suppose the character.

As Salome she excelled Mary Garden who tried Thais. Miss Garden was too conscious of her own physical charms. Theda Bara on the other hand danced in and out of the baths, shed most of her seven veils when she danced before Herod with that insouciance and naivete which would feed an observer to imagine that Theda had done that exact thing all her life.

Fox has given "Salome" a rich setting, truly Oriental in splendor. It should be seen. The last night tonight, and many who saw it for the first time Wednesday will see it a second time at the Best.

At the Best Tomorrow

Marguerite Clark's new Paramount picture, "Let's Elope," a picturization of Fred Jackson's famous farce, "The Naughty Wife," which was a hit in New York in November, 1917, is filled with action from start to finish and provides Miss Clark with one of the best roles in which she has been seen since she became a screen star. "Let's Elope" will be shown at the Best theatre tomorrow.

At the Best Soon

In "That Night" one of the new Paramount-Mack Sennett comedies which is appearing at the Best theatre, Charlie Murray gets one of the quickest and funniest jags on record. It comes on suddenly, during what, in technical parlance is termed "biting out" and in again. However, there were several very beautiful feminine reasons why Charlie lost his head, as one cannot fail to observe when the picture is seen.

Time's Changes.

Caesar used to wait days to hear from the outposts of his empire, but today the descendants of his legions who play the sunny fields near Hammond, La., get daily market news on their strawberries from places thousands of miles away. This news comes over wires and is issued in Italian, as well as in English, by the local office of the bureau of markets of the United States department of agriculture.

Cure for Rheumatism.

A certain variety of seaweed, known in Ireland as "tope," has been recommended by a famous physician as a cure for rheumatism and throat affections if eaten hot, whilst in some parts of England and Wales a variety of seaweed, known as "laver," has been in demand for years as a vegetable. Served with roast meats it is said to be extremely palatable.

FORD OWNERS PICNIC JUNE 21

To be Held on Shores of Mille Lacs
Lake Near Garrison, Immense
Crowd Expected

PRIZES GALORE ARE OFFERED

St. Paul, Minneapolis, Duluth and
Other Big City Accessory and
Tire Houses Giving Prizes

The first Ford owners picnic in the history of Minnesota is the novelty for which the Woodhead Motor Co. of Brainerd is host. To date scores of Ford owners have registered at the Woodhead Motor Co. offices, thus giving assurance of their attendance. Registration is necessary as it gives the Woodhead Co. something to base on in figuring the amount of refreshments to have on the grounds. Refreshments will be free.

The picnic will be held on Saturday, June 21, at Garrison on the shores of noble Mille Lacs lake, one of the finest beauty spots in the lake region. The trail to the picnic grounds will be blazed with confetti. Bring your lunch and a cup for coffee. Hot coffee will be served, everything will be free—candy, peanuts, ice cream, pop corn, lemonade, music, dancing, souvenirs.

The first list of prizes advertised started out with three to the blind time contest. Other contests provided for are the slow speed race 500 feet; a reverse gear race; a race over a given distance for the best time made; a ladies race.

The idea of a Ford owners picnic when brunched to the large tire, accessory and other dealers of St. Paul, Minneapolis, Duluth and other cities, took at the first jump and John F. Woodhead is being inundated with notifications of prizes offered and reminders that manufacturers and agents will be represented by superintendents or in many cases by heads of businesses themselves.

For instance here are a few:
Empire Tire & Rubber Co., Minneapolis—Advise that their representative, Mr. Prentice, will be on hand for the big show.

Kelly-Springfield Tire Co., Minneapolis office—Write they will have a representative present.

Hassler Shock Absorber, Minneapolis office—"Jack, old boy, will try to be present at the picnic. No doubt you will know what kind of weather to order and also the other necessities," says Edw. McClintock.

Western Motor Supply Co., Minneapolis—"We have made arrangements to have our Mr. Murphy present at this meeting and we shall be very glad to make a little donation in the way of a prize for your races or contests of various sorts. Don't know exactly what would be most appropriate, but suggest a nice nickel plated Lyon bumper or something of that sort. If you have any other suggestions, kindly advise, otherwise we will send the Lyon bumper."

Marshall-Wells Co., Duluth—C. H. Horn, manager, writes he will be accompanied by Mr. Calkins. Expect to be able to be present and offer prizes for various contests.

Delco-Light Product, Minneapolis—Mr. Taylor will come.

United States Tire Co., Minneapolis—District Manager J. A. Vines is coming.

Stewart Product Service Station, Minneapolis—F. O. Felscher offers three prizes of Stewart products, a Stewart V-Ray searchlight, a Stewart hand signal and one set of V-Ray spark plugs.

Other letters can be quoted testifying to the wide interest taken in the coming picnic. The date, it is believed, will come on the annual shop picnic and accordingly the Northern Pacific railway shoppers, a large proportion of whom own Fords, will be represented with cars and families.

In the blind time contest Mayor F. E. Little will write out a set of figures and the three contestants coming nearest to the time marked, will gain the prize. A committee of three Ford owners will be appointed judges and some one will register every one upon their arrival at the picnic grounds between 6 A. M. and 1 P. M. A baseball game is also on the program.

In conclusion Mr. Woodhead said: "We want you Ford owners to come and bring your friends. Register how many in your party at the Woodhead Motor Co. in Brainerd. Help make the picnic a success. The idea is a good one and if we have an immense crowd it will give Brainerd credit for something brand new and be talked about for months."

IMPORTANT

The Clerks Union, No. 295, will hold a meeting Thursday night, June 5th, Odd Fellows hall, at 8:15 o'clock sharp. As there will be a great deal of business brought up, all members are urged to be present. A dance with special music will follow. Visitors welcome.

ST PAUL ROTARIANS TO VISIT FRIDAY

To be Met in Afternoon at Barrows
By a Delegation of Automobiles
From Brainerd

7 O'CLOCK DINNER RANSFORD

Rotarians are Jolly Good Fellows and
City is Glad to Welcome Them
Here Tomorrow

St. Paul Rotarians are coming to Brainerd Friday afternoon and will establish their night control in the city.

A seven o'clock dinner will be served at the Ransford at which it is expected they will meet with representative men of Brainerd.

In instructions issued by A. J. Hayes, chairman of the special committee of the Chamber of Commerce on their reception, he states that "in order that they may be well received we propose to meet them at Barrows and escort them to our city. A number of car owners are being asked to furnish their cars for this purpose to meet at the Ransford hotel promptly on call by the writer on Friday some time about 4 o'clock in the afternoon. You are requested to get a car full to go out with you."

PLANS DESTROYING BARBERRY BUSHES

Robert M. Groesbeck, field assistant of the U. S. Department of Agriculture, is in Brainerd for the purpose of destroying all plantings of the common barberry in the town. Mr. Groesbeck intends to thoroughly cover Crow Wing county in his search for the bush.

"It is the duty of every land-owner," said Mr. Groesbeck, "to co-operate with the government in its campaign to eradicate this enemy of the farmer. Every barberry bush left growing means so much more wheat rusted and every bushel is needed this year."

It must certainly be to every farmer's advantage to aid in ousting this dangerous plant. You insure your wheat against smut by treating the seed with formaldehyde. Why not insure it against black stem rust by destroying the barberry?

Hot, damp weather does not cause the rust. It only furnishes the necessary conditions for rust to grow. Rust is a parasitic plant, which lives on cereal grains and wild grasses during the summer and fall, and on stubble and dead grass during the winter. In the spring tiny "spores" or seeds from the rust blow from the stubble and are carried into the air by the wind. There are many thousands of these tiny seeds, and in the course of time some of them are caught upon the surfaces of barberry leaves. Here they germinate, and in ten or twelve days produce new spores. The latter are in like manner blown about by the wind, and those that fall on the stems of grasses or cereal grains germinate producing rust.

Since the barberry, and no other plant in this country, harbors the rust spores, it is planned to get rid of the barberry and stop the rust. Have you a barberry in your yard? If you have, dig it out by the roots. In doing so, you will have contributed toward a bumper wheat crop for 1919.

ERICKSON & CARLSON

Firm Name of Dentists, Dr. W. A. Erickson and Dr. Melvin Carlson
Being Associated

Dr. Melvin Carlson, son of Mr. and Mrs. John Carlson of Brainerd, recently practicing in Winthrop, Minn., has associated himself with Dr. W. A. Erickson, well known dentist of this city, in the practice of his profession and the firm name will be Erickson & Carlson.

The offices in the Citizens State bank block have been greatly improved and decorated. The suite consists of three rooms, of a waiting room and private office of each dentist.

Among the new equipment of the office with be an X-ray machine for taking radiographs, a nitrous-oxide machine for painless extraction of teeth, etc. Radiographs are especially desirable in revealing hidden defects. Modern science has shown that many of the ills of humanity have their base in bad teeth and accompanying complications.

Dr. Carlson had considerable hospital experience at the University hospital in Minneapolis. Dr. Erickson saw service under the colors and aided in getting many a recruit in shape to tackle the kaiser and help win the war.

OLD PAPERS—5c BUNDLE

LIBRARY BOARD HOLDS ELECTION

Prof. J. A. Wilson Re-elected President, G. W. Chadbourne Secy., Mrs. W. C. Rasch Vice Pres.

COMMITTEES ARE NAMED

Board Discusses Plans to Increase the Efficiency of the Library and Enlarge Usefulness

The Library Board met at the library reading room Wednesday evening and re-organized by re-electing Prof. J. A. Wilson president, G. W. Chadbourne secretary, Mrs. W. C. Rasch vice president.

The president appointed George Bouck, T. T. Blackburn and Mrs. W. C. Rasch members of the building committee. To this committee was added later J. Murphy as he has had carpenter experience and knows a lot about roofs. The building committee began at once consideration of getting a new roof on the library building. The roof leaks badly, the water entering greatly damaging interior decorations. The committee has a difficult job on its hands, the roof being fundamentally wrong in some place.

For finance committee Pres. Wilson appointed G. W. Chadbourne and Mrs. Ben Armstrong. The appointment of the book committee will be announced later.

The board discussed plans to increase the efficiency of the library and to make Brainerd's library the equal of any library in Northern Minnesota.

Mrs. T. E. Jones, the very efficient librarian, will remain with the library.

ROLL OF HONOR

* * * * *

Lee LaBaw, court reporter for Judge C. W. Stanton, has returned from overseas service in France and is now with his family in Bemidji. Ralph E. Minear, court reporter temporarily in Private LaBaw's place, will return to his home in Chicago.

Louis Imgrund of the 88th division, is expected home soon. The transport Hyndman brought a lot of Minnesotans of the 88th division home. These are some names noticed from Brainerd and vicinity: 313th Field Signal Battalion, Co. C, Sergt. Fred A. Rau, of Brainerd; Corp. Phillip Frenier, of Crosby; Pvt. Peter M. Paulson, of Pillager.

On the transport Mobile were 26th Engineers: Pvt. William Brown of Pine River; Pvt. William Wiens, of Brainerd.

On the transport Cape May was Corp. Lee M. Bennett, editor of the Pillager Herald, member of the 326th Infantry.

On the Julia Luckenbach were: Lester Bentley, of Brainerd; Pvt. Wm. J. Senn, of Brainerd, of the 310th Infantry.

On the transport Italia was Wagoner E. R. Alberg of the 16th M. G., of Brainerd.

Capt. Henry C. Mills has wired his parents, Mr. and Mrs. C. H. Mills, that he is on his way to Camp Dodge and expects to be home in five or six days. He is in charge of a train carrying soldiers to the camp.

Sergeant and Mrs. Franz R. N. Anderson of the Anderson Studio, returned this week from their trip to Chicago and other places. Sergt. Anderson recently returned to the states after a year overseas, and was discharged at Camp Dodge where Mrs. Anderson joined him. The Andersons have taken charge of their studio here again.

GUEST AT RECEPTION

Rev. D. W. Lynch, Recently Made
Monsignor, to be Honor Guest
in West Duluth

(Duluth News Tribune)

Rev. D. W. Lynch, who recently was raised to the position of monsignor in the Catholic diocese of Duluth, will be honor guest at a reception tonight, to be given in Gilley's hall, 322 North Central avenue, under the direction of Division No. 2, Ladies' auxiliary of A. O. H. in recognition of the honor conferred upon him. Visitors from the other auxiliary societies of the order in the city will be present.

The committee in charge of arrangements consists of Mrs. Joseph Methold, president of the auxiliary, Mrs. A. Brotherton, Mrs. Edward Madden and Mrs. W. C. Fremont.

COME IN AT ONCE

Taxpayers who have neglected to make out their personal property returns, should do so at once, otherwise I shall be compelled to make my own estimate and taxpayers will have no recourse.

HUGO A. SCHWARTZKOPF,
Asst. 11

BRAINERD WILL PLAY VERNDALE

First Game With Western Town at
Koering Field on Sunday After-
noon at 3 O'clock

"LEFTY" HIER WILL PITCH

Verndale Beat Little Falls in Opening of Season 3 to 2, Are Fast
Players

Brainerd plays Verndale at the Koering grounds on Sunday afternoon at 3 o'clock. "Lefty" Hier will be on the mound for the locals and the pitcher can be expected to give a good account of himself. He has been growing in the estimation of the fans every time he hurled.

Verndale is a fast team. "Bungo" Towers, who pitched against Brainerd several seasons ago at Brainerd in a 2 to 1 game, has staged a comeback according to Verndale reports and will pitch Sunday for the Verndalites. The team is never licked until the last man is out, as witness their game at the opening of the Central Minnesota League at Royaltown Decoration Day when they defeated Little Falls 3 to 2.

Templeton of Brainerd played short on opening day and held down that position with commendable ability. The outer garden worked to perfection and balls knocked there were quickly scooped up into a well of mits.

The attendance is growing all over the league, showing that people like baseball when played under league standards.

AUTO TOUR FROM IOWA

Planned to Travel Via Iowa Parks,
Itasca Park and Mississippi
Scenic to Cass Lake

Boosters from the Hawkeye State in liberal parties are to attend the Northern Minnesota Development association convention at Cass Lake on June 20-21, according to advices received by Secretary F. T. Lincoln of this city today. An official run from Des Moines, Iowa to Spirit Lake and Itasca Park, Minnesota, is being planned and promoted by A. E. Nissen of St. Paul and the secretary of the Northern Minnesota Development association.

Early on Wednesday morning, June 18th, it is expected that not less than 25 automobiles, loaded with Good Roads Boosters will leave Des Moines, Iowa, for a ten day joy ride.

The plan is to travel about 90 miles a day thus giving the joy riders an opportunity of enjoying the beautiful scenery along the route, which will be as follows:

The Iowa Parks Highway from Des Moines to Spirit Lake through the following towns: Des Moines, Grimes, Dallas Center, Panora, Guthrie Center, Bayard, Scranton, Glidden, Ralston, Carroll, Auburn, Sac City, Early, Storm Lake, Sioux Rapids, Spencer, Milford, Arnolds, Park and Spirit Lake.

Itasca Park Highway from Spirit Lake to Itasca Lake through the following towns: Spirit Lake, Jackson, Sanborn, Windom, Olivia, Redwood Falls, Morton, Willmar, Sauk Centre, Long Prairie, Wadena and Itasca Lake.

Mississippi River Scenic Highway from Itasca Lake to McGregor, Iowa, through the following towns: Itasca Lake, Bemidji, Cass Lake, Walker, Pine River, Little Falls, Brainerd, St. Cloud, Elk River, Anoka, Minneapolis, St. Paul, South St. Paul, Hastings, Red Wing, Wabasha, Lake City, Winona, LaCrosse, Caledonia, Waukon, Iowa, Monona, North McGregor and McGregor.

The Iowa Park Highway from McGregor to Des Moines through the following towns: McGregor, Elkader, West Union, Fayette, Osceola, Waterloo, Cedar Falls, Grundy Center, Marshalltown, Laurel, Newton, Colfax, Mitchellville, Altoona and Des Moines.

It is expected that quite a number of cars will join this run when the parties starting out from Des Moines arrive at their respective towns, and it is anticipated that at least one hundred cars will be at Cass Lake on the evening of June 22nd at which time the Northern Minnesota Development association are staging a real Indian dance and pow-wow.

The run is being promoted by the officials of the Iowa Parks, Itasca Park and Mississippi River Scenic Highway associations. In order to advertise their very beautiful highway. Everybody is welcome to join in this sociability run, but it is hoped that as many as possible will make the entire round trip from Des Moines to Des Moines or at least from their own town back to their own town over these three highways.

Funeral Notice

Special communication of Aurora Lodge No. 199, Friday at 1 p. m., for the purpose of attending the funeral of our late Bro. Gust H. Woerner.

Summer Fabrics and Summer Dresses

Perhaps you will want to make your own dress and is if so you will greatly appreciate the wash fabrics we show

A larger number of women than ever before are buying their dresses ready made. They like the style and the way they are made.

It matters not how you decide to arrange the dress question you will be more than pleased with our fabrics and our dresses.

H. F. Michael Co.

DEERWOOD

Deerwood, Minn., June 3—John Swanson was operated on at Brainerd.

John Engman, Sr., is visiting his son Charles in Stanchfield. The Methodist Ladies' Aid met with Mrs. Walter Archibald Wednesday.

William Maley has been doing plumbing work for W. C. White.

Mr. and Mrs. H. J. Ernster and Mr. and Mrs. Theo. L. Lee motored to Brainerd and the gentlemen attended the Crow Wing county bankers' association annual meeting.

Mrs. Alfred Anderson went to Brainerd to see her husband who is in a hospital.

Miss Della Wetzel is visiting her brother, Paul K. Wetzel. Isaac Sall and family of Sandy Lake, have been visiting the former's parents, Mr. and Mrs. L. J. Sall. Mrs. P. A. Gough and son Percy are visiting in St. Paul.

The annual meeting of the Deerwood Civic League will be held on Tuesday, June 10, and will be entertained by Mrs. James T. Hale at a luncheon, following which will occur the annual election of officers.

If We Say It, It's So.
If It's So, We Say It.

Crow Wing County Travelers

Will Find a Warm Welcome at

"THE WEST"

Minneapolis

Service Our Watch Word

TRUTH

The VIGILANCE BUREAU of the MINNEAPOLIS ADVERTISING FORUM and the VIGILANCE COMMITTEE of the SAINT PAUL TRUTH-IN-ADVERTISING BUREAU have devoted much time and spent considerable money during the past twelve to eighteen months endeavoring to discredit and reflect on the PAN MOTOR COMPANY, its Officers and Directors, and endeavoring in various ways to make trouble for the PAN MOTOR COMPANY, its Officers and Directors, not only in Minnesota and with the Minnesota State Secretaries Commission, but also with the Federal Authorities and the Blue Sky Commissions of other states. These above-mentioned Advertising Bureaus are affiliated with and are a part of the Associated Advertising Clubs of the world.

The NATIONAL VIGILANCE COMMITTEE of the ASSOCIATED ADVERTISING CLUBS OF THE WORLD for about two years has spent a large sum of money and a great deal of the time making trouble for the PAN MOTOR COMPANY, its Officers and Directors throughout the entire United States. They have furnished newspapers and magazines with maliciously untrue statements regarding the PAN MOTOR COMPANY, its Officers and Directors, and URGED THOSE NEWSPAPERS AND MAGAZINES NOT TO ACCEPT ANY OF OUR ADVERTISING. We believe they have conspired to interfere with free trade, and to destroy a possible competitor to certain interests they represent—and, have, themselves violated the law, and their case is such that the FEDERAL TRADE COMMISSION was created by Congress to deal with, and, in our opinion, the ASSOCIATED ADVERTISING CLUBS OF THE WORLD and THEIR METHODS SHOULD BE INVESTIGATED BY THE FEDERAL TRADE COMMISSION.

The PAN MOTOR COMPANY has sued the contributing members of the VIGILANCE BUREAU OF THE MINNEAPOLIS ADVERTISING FORUM for One Million Dollars. The PAN MOTOR COMPANY and itself have also sued certain Officers of the ASSOCIATED ADVERTISING CLUBS OF THE WORLD at Indianapolis, Indiana, for Five Hundred Thousand Dollars.

The PAN MOTOR COMPANY and myself will file other suits against the ASSOCIATED ADVERTISING CLUBS OF THE WORLD and their affiliated members as well as some of their contributing members throughout the country.

We are thoroughly convinced in our own minds that the ASSOCIATED ADVERTISING CLUBS OF THE WORLD do not stand for and do not represent the things that they claim to have been organized to carry out; but, on the contrary, it is our opinion that they represent special interests that finance and maintain them and which are the principal clients of the leading Advertising Agencies that are influential members of the ASSOCIATED ADVERTISING CLUBS OF THE WORLD.

Every person or corporation having the same ideas that we have regarding the ASSOCIATED ADVERTISING CLUBS OF THE WORLD and their affiliated bodies and knowing of the reprehensible methods and practices of the ASSOCIATED ADVERTISING CLUBS OF THE WORLD and their affiliated bodies should write immediately to S. C. Pandolfo, President of the Pan Motor Company, Saint Cloud, Minnesota.

**S. C. PANDOLFO, President,
Pan Motor Company,
Saint Cloud, Minnesota**

Colors of the Sardine.

The fresh sardine is a beautiful little fish. The scales on its back are an iridescent blue-green, the exact tint which the sea often takes, while beneath the scales there shows up the most wonderful rose-coral blue. There are bars on its back and sides when it first comes out of the water like those on the mackerel, but they seem to fade and disappear the moment it is exposed to the air. The remainder of its body is pure silver in its color scheme.

Golden Eggs.

The value of the eggs and poultry produced every year in the United States is now \$750,000,000, or more than that of all the gold, silver and diamonds produced in a year in the whole world. There are about three hens to a person, and each hen lays on an average 80 eggs a year. The best layers produce as many as 240 a year. Farmers' flocks consist on the average of only about 40 birds, but even at that they contribute notably to good living on the farm.

German Siege of Paris.

The siege of Paris began on September 15, 1870, and ended on January 28, 1871, when the city surrendered. German troops entering the city in March, 1871, and remaining 48 hours. The eastern part of Paris was bombarded by the Germans on January 8, 1871, and about a week later there was a general bombardment, in which many buildings were damaged and a number of persons killed. After the latter bombardment France appealed to the neutral powers, but received no response.

Daily Thought.

Dreaming of a tomorrow, which tomorrow will be as distant then as today.—Tome Burgillos.

RED CROSS HONORS NOT ENTIRELY JUST

DECORATIONS GIVEN FOR HOURS OF SERVICE, REGARDLESS OF OTHER CONDITIONS.

LIKE STRIPES FOR SOLDIERS

Washington Society, Reviving Something From the War, Finds That Women Have Become Broader Minded and Fond of Work.

By EDWARD B. CLARK.
Washington.—"Over there," if a man was in the front line of the hardest fighting, but was in France for less than six months, they gave him a blue service stripe, while the man who was at Bordeaux, or some other place miles removed from the fighting, was given a gold stripe if he was in France for six months. Somehow this does not seem right.

In the United States today the Red Cross officials are decorating the women who worked for the cause for a fixed number of hours. Conditions of health and opportunity being equal, it seems perfectly right that there should be a difference made between the women who worked for a short time and those who worked for a long time, but also it seems possible that a hardship and an injustice is worked if a woman who did all that there was in her to do and broke down under the strain, "Invalided out of the service" as it were, should not be given the same honors that go to a sturdy one who passed through the ordeal.

Red Cross work has not stopped and it never will stop, for the Red Cross is an organization which must go on in peace and in war. Many of the war-time activities have ceased, especially knitting and the surgical dressing activities. Garments and some kinds of dressings still are needed, and so hundreds of Washington women still ply their needles, their scissors and their sewing machines.

Washington Society Reviving.
The capital always has loved to plunge into the swift current of the social stream. The desire to jump in several times a day was just as strong on the eve of this war as it had been at any time since Dolly Madison kept open house. As soon as the stroke of war sounded from the war department tower the social stream stopped running, except on the occasions when the flood gates of charity were opened. Even when a ball was given for the benefit of stricken soldiers or civilians there was not the same heart in the thing nor the same spirit in the festivities that were manifest before the day when our men went to sea or into the field.

Washington was in a way a social desert for three years, for the damping of the upper waters of the social stream began just about a year after the European countries flew at one another's throats. Today Washington is trying to be jolly again and hostesses are trying to gather enough people together on numerous occasions to make the jollification apparent.

There were those who said that the reaction would come, and that the capital would go head over heels into gaiety, and that not even Lent could stay the inclination to let loose. To some extent the reverse has proved to be true. The women of this town, rich, moderate income and poor, became serious minded almost overnight. It is difficult for some of the women to break away from the set practices of several years to go back to the ways of another day.

Having the Experience of Paris.
Washington is experiencing, in a somewhat minor degree it is true, just what happened in Paris when the Hun let ravage loose on Belgium and on the northern frontiers of France. Paris is Paris, but it became something very much different from the ordinarily accepted Paris when war loomed black. The Parisian women of high degree turned to, to knit, to sew, to work among the lowly, to scrub floors and even to undertake the hardships of the field under at that time a rather poorly regulated nursing system.

France is a place of curious contrasts. It was nothing at all for a marquis of the old regime to enter the ranks as a private to fight side by side with the workmen from his own estate. The marquis thought nothing of it except that it was life and it was the accepted and acceptable thing. It was a little different in Paris at the first, for the marquis, unlike her husband the marquis, did not know at the first how she could accept the kind of companionship at home which he so gladly accepted in the field, but the marquis soon discovered that real companionship could be had with people who never saw the inside of her gates.

War has leveled social ranks in Washington as it did in Paris. How long they will remain leveled no one knows, but it is probably a goodly and a Godly thing that certain events have happened. The women of this town are broader minded, more kindly in their judgments and harder working than ever they were before in their lives. It is difficult for them today to turn away from the work of three years to give themselves over to the play of other years. They probably will find work for their hands to do even when the peace pact finally is signed and the world settles back into something like a semblance of the former properties.

POLITICAL POT IS BOILING MERRILY

HEADQUARTERS OF DEMOCRATIC AND REPUBLICAN PARTIES IN WASHINGTON BUSY.

PROPAGANDA IN QUANTITIES

No One Knows Yet Who the Presidential Candidates Will Be, but Friends of Many Aspirants Are Hard at Work.

By EDWARD B. CLARK.
Washington.—A conference of Democratic state chairmen in Chicago, and a conference of like gentlemen of the Republican faith in Washington; a conference of Progressive Republicans in Chicago, to be followed by another conference of like kind in a few weeks—and so the political pot begins boiling, and the lid will be raised by the steam and ebullition of the water in just about one year's time.

Congress is here to legislate, but it is also here to talk politics, and so to speak, to work politics. Two headquarters in this city, one Democratic and one Republican, are serving today as clearing houses for an immense amount of political propaganda in printed form. Both headquarters are in the same building with three floors separating their activities. It is a bit curious to read side by side the news and the editorial matter which the rival gentlemen are printing and spreading broadcast.

One gets from Democracy's room a long story about the beauties of certain Democratic legislative acts of the past, while at the same time he can read in another column of another sheet all about the iniquities of the same acts. It is a merry world and all is well meant, but the voters will have to do a heap of thinking to decide on the merits of the cases illustrated argumentatively for them in the black letters of the print shop.

Guessing at Candidates.

The Republicans do not know yet whom they are going to nominate for the presidency next year, but they are no more at sea than are the Democrats. Of course when one speaks in Washington of the opinions of Republicans and Democrats, he is speaking of the political leaders of those parties who hold public office, either under the dome of the capitol or somewhere within its shadow when the sun makes that shadow long.

Recently a well-known Democratic organ declared on what almost might be called its oath of negation that President Wilson was not going to try to secure the nomination once more for himself. There are some Democrats, however, who think that the president may be willing to be again the standard bearer of his party.

Eliminating the president, the three men most prominently spoken of in Washington by Democratic leaders for the presidential nomination are William Gibbs McAdoo, Champ Clark and James M. Cox of Ohio.

The Republicans are watching the booms of the various sons of the faith. The Progressive Republicans at their recent conference in Chicago virtually declared that they were Republicans and intended to remain Republicans, but that their endeavor would be to see that progressive principles were espoused by the party, and that they would use their best efforts to secure delegates to the Republican convention who would vote for the nomination of a candidate known to be progressively inclined.

Candidates for the presidential nomination are numerous, more numerous in the Republican party than in the Democratic party, but it must be understood that no one of these men yet has declared openly that he has high hopes in his own behalf. In other words, all the booming that is being done today is the work of the friends of candidates rather than of the candidates themselves, although it can be taken for granted that in the quiet of office rooms several Democratic gentlemen are doing what they can to foster their own fortunes.

Republicans Seeking Harmony.
On the Republican side the names most prominently mentioned today are Leonard Wood, Warren G. Harding, Hiram W. Johnson, Philander Chase Knox, William H. Taft and Frank O. Lowden.

So far as the Republican party is concerned the leaders admit that the differences between the progressives and the old-liners, or the regulars as they prefer to be called, must be adjusted harmoniously before the election of next year. Some of the Republican leaders say that congress itself will do a good deal to iron out the wrinkles of discord. The progressive Republicans in house and senate are in the minority. They can be treated well or ill by their majority brethren and the nature of the treatment probably will have a considerable bearing, or at least so Republicans say, not only on the result of the election next year, but on the convention itself.

Congress is here to legislate, but the country knows well enough from the history of the past that politics and legislation almost invariably go hand in hand. Washington will be politically and legislatively an interesting place from now until the first Tuesday after the first Monday one year from next November.

HINES PROMISES BETTER SERVICE

Rail Administration Preparing to Handle Large Northwest Grain Crop.

KEEN INTEREST TAKEN

North Dakota and Minnesota Officials Go to Washington and Urge Improved Facilities to Prevent Congestion.

Washington, June 5.—State Senator Murphy of North Dakota, and O. P. B. Jacobsen, Minnesota, railroad and warehouse commissioner, held a conference with Director General Hines of the Railroad administration. Their mission was to ask for better facilities for the handling of the Northwest wheat crop. They were assured better facilities would be given.

Byron Timberlake of Minneapolis, is in Washington endeavoring to secure an amendment of the revenue bill as it affects men insured for the benefit of corporations. As the law now stands, a man may be insured for, say \$500,000 for the benefit of his corporation, which has an income of approximately a million dollars. The company may have been paying a large sum of money for years to carry this protection. Under the law, the \$500,000 would be added to the yearly income subject to income tax together with the regular tax upon the average income with the result that the income tax might be greater than the insurance benefit for which the corporation had been paying for years. It is anticipated the clause will be amended.

E. E. Smith of Minneapolis, former chairman of the Republican state central committee, is a Washington visitor. Representative Walter H. Newton of Minneapolis has been requested to introduce a bill granting permission to the city of Minneapolis to build a bridge across the Mississippi at Franklin street. Mr. Newton took the matter up with the Interstate Commerce commission.

MAYOR WARNS ANARCHISTS

Paterson Officials Will Rid City of Undesirables.

Paterson, N. J., June 4.—A warning to bolsheviks and anarchists to keep out of Paterson was issued by Mayor Newman as the result of the bomb explosion. Mayor Newman's statement said:

"We do not intend to stand for bolshevism or anarchy in this country. Wherever and whenever we find it we are going to hit it and hit it hard. Everything in sight will be cleaned out as far as it is possible to rid the city of these undesirables."

\$50,000 PRIZE IS OFFERED

Aviator Can Win Money by Flying to Australia.

Venice, Calif., June 5.—Announcement was made by Thomas H. Ince, motion picture producer, that he will give \$50,000 as prize money for aviators who will attempt a flight from here to Australia.

To the first man to land on Australian soil \$50,000 will be paid, he said. To the first aviator attempting flight, who although failing to reach Australia, reaches the Hawaiian Islands, \$10,000 will be paid.

IT PAYS TO ADVERTISE

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

To-morrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside-bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive, white powder and almost tasteless.

VICTORY ANNOUNCEMENT

More Mileage Adjustment on Goodrich Tires

Fabrics - 6,000 Miles
Cords -- 8,000 Miles

To automobile owners and drivers—to Goodrich Dealers—the B. F. Goodrich Rubber Company herewith declares a more-mileage adjustment on Goodrich Tires—6,000 miles for SAFETY TREADS, and 8,000 miles for SILVERTOWN CORDS.

Fix these new Goodrich Adjustment figures firmly in your mind—6,000 miles for SAFETY TREADS—8,000 miles for SILVERTOWNS—instead of the 3,500 and 5,000 miles respectively heretofore in force.

This new adjustment stands back of all Goodrich Tires, including Tires already purchased in the hands of user or dealer.

Goodrich Tires in actual usage are today unfolding such matchless mileage, regularly in excess of adjustment basis, that Goodrich knows it has the strongest, most durable tires the rubber industry has produced.

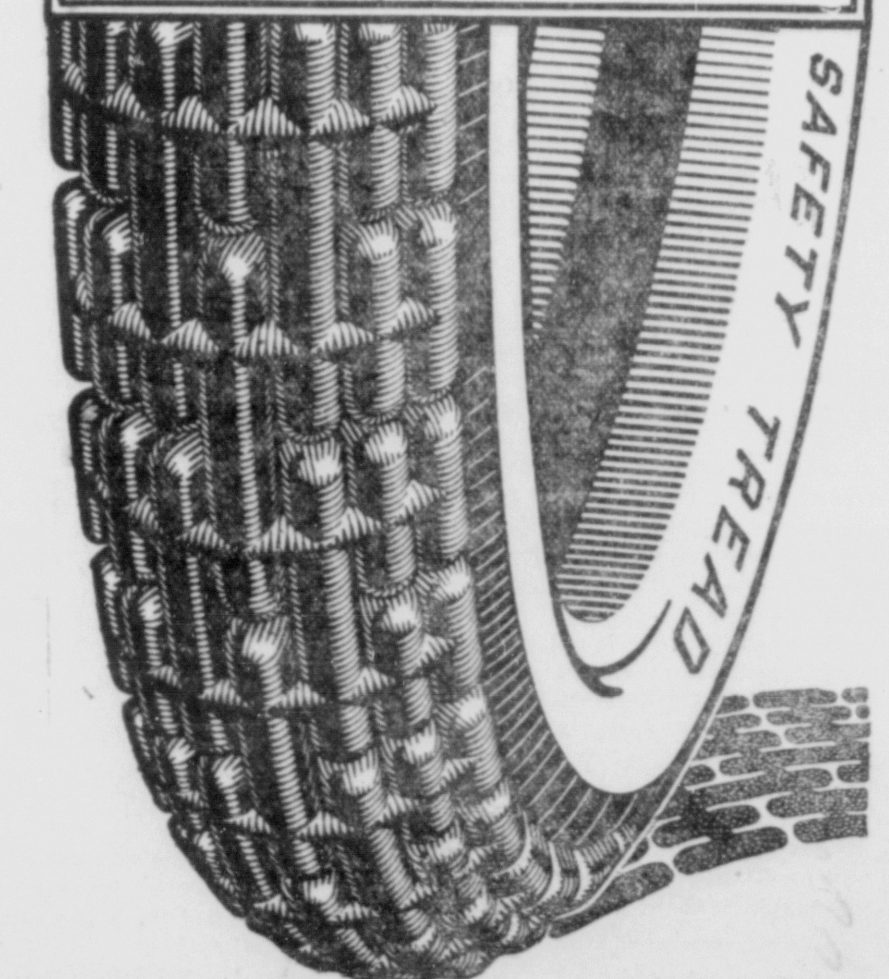

The Goodrich adjustment mileage is increased because Goodrich knows the mileage in its tires, and it wants to give every motorist a share in their economy.

Go to a Goodrich Dealer, and buy a Goodrich Tire, sure that with fair and square usage a Safety Tread will render you at least 6,000 miles; and a Silvertown Cord at least 8,000.
